Postgraduate Diploma and MSc- INSTRUCTIONAL DESIGN AND TECHNOLOGY

Programme Advising for Academic Year 2020/21

(for students starting the programme in JANUARY 2021)

ADVICE: For the working adult we recommend a maximum of 2 courses per semester (Part time Status).

University Regulation governing Full Time status for Graduate Students: Full-time students may take employment for not more than **twelve hours** per week without losing their full-time status otherwise they shall be registered as part-time. However, research students who hold Teaching or Research Assistantships in the area of their research programmes may be registered as full-time students, provided that their employment commitment does not exceed twenty hours per week. [Board of Graduate Studies and Research (BGSR) Regulations, August 2018, #1.46]

Note:

- The duration of the programme is based on the courses outlined for each teaching period. If you choose to do less than the outlined number, note that this will prolong your studies. Note that the programme does not have a full time delivery schedule at this time, however students wishing to take on a full time load can consult the Programme Manager to work out a personalized schedule.
- It is mandatory that all students participate in the Graduate Introduction to Online Learning course **(OOL6001) and complete this by the end of their first semester**. You can review the information about this course on the Website. If you are re-entering the programme and have completed this course already, you will not need to redo the course once done within 5 years of your re-entry.
- Note that Semesters 1 and 2 have 13 teaching weeks, while the Summer Session has 7-9 weeks of teaching. It is important to note that Summer Session is Compulsory and not doing courses in the summer will affect the duration of your studies.
- Students should download a copy of the Academic Calendar and note the deadlines for normal registration, late registration, requesting leave of absence, and other important dates.
- Students should also read information on the website related to REGISTRATION PROCEDURE to ensure that they have completed all the steps in the registration process.
  Students with resits to do, should note the courses on offer each semester (you may need to consult advising documents for other cohorts). IF you are repeating a failed component, that is you received the grade FC, please complete the necessary Repeat Form by the end of registration for the related teaching period. See link at the end of this document.
