

Consortium for Social Development and Research Social Work Training and Research Centre

IMPACT ASSESSMENT

This course is primarily designed to strengthen the capacity of the participants to design, conduct, analyse and manage impact assessments and evaluation of policies and programs. It aims at imparting skills to participants on the ways to carry out impact evaluations on their respective programs, policies, or projects. At the end of the course a participant should be able to carry out a well-designed impact assessment with respect to specific interventions being undertaken across government or non-government actors.

The main objectives of this course are to:

- Provide the planning, research and monitoring staff with an understanding of the concepts and applications of Impact assessment and evaluation of policies and programs
- Equip the staff on the use of various tools and methodologies to conduct impact assessments and evaluation
- Strengthen the capacity of the Planning, Research and Monitoring staff to design, conduct, analyse and manage impact assessments and evaluation of policies and programs

At the end of this course, participants should be able to:

- Develop skills required to conduct applied social research
- Outline the tools of Monitoring and Evaluation
- Identify impact evaluation theories and practices
- Carry out a project impact evaluation using prescribed post impact evaluation criteria

Contact Hours: 40
